Feeling Angry

I feel angry when my brother picks on me I say "GRRRRRRRRRRRR." I go to my room. I feel angry. I get my fist and it feels like I'm turning into Hulk Smash. I just want to hit something and somebody. It feels like a volcano. BOOM! I feel like a man made out of fire.

Feeling Angry

I feel angry when my cat scratches me. It really, really hurts and then she tries to jump on me. Her claws stab into me, it really hurts me. I am really angry after that.

When I am angry I pull my fists out. My happy face turns into an angry face. I feel like I am as hot as a volcano's fire I feel so hot and flamey. I feel like I am going to collapse. I feel like fainting and falling over.

Feeling Sad

I feel sad when my grey cat Boessy died. I love him. He was my best friend ever. When I was going to the bus stop I saw Boessy lying dead on the driveway. "OH NO!"

When I am sad I drop my head and start crying. My tears drop down my cheeks. It feels like I am drowning and it feels like sharks are eating my body.

Feeling Sad

I feel sad when my cow died. There was blood everywhere. The butcher used a machine to get the blood out. I cried and cried.

When I feel sad I turn blue and tears start to fall down my cheek. I feel so sad. It feels like I just don't want to do anything.
